Dear Lisa:

I would like to thank you for taking the time out of your busy schedule to visit our center to give a lecture to our seniors.

This is a very important subject for the seniors. There is so much talk out there about Health Insurance that it can be overwhelming and difficult to understand. Our seniors are exposed to this and are very concerned about the changes and how they would be affected.

Your response to their questions was easy to understand. I think they left the lecture well informed and not so confused about all these proposed changes.

Our mission at the Florence Sylvester Memorial Senior Center is a "collaboration of community resources committed to promoting and enhancing the physical, social and emotional needs of seniors".

Thank you again for your time and expertise.
