Dear Lisa and Medi-Cal Consulting Services,

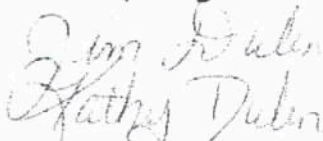

My husband and I are writing this letter to let you know how much we appreciated the care you have given us in dealing with our loved one. I was drowning in paperwork and unable to take care of all the things that are required in caring for my husband's mother. Here finances were running out and with little information and knowledge of where to turn for help we were given the name and number of Medi-Cal Consulting Services, Inc.

Lisa, you were my first contact and were warm, caring and full of information for me. You gave us information to think about when we first spoke on the phone and then when we meet in person. I took an instant liking to you Lisa, but the real story started when my mother-in-law met you and loved you as well. You filled our heads with a lot of things to think about and let us make our own decisions and walked us through every step of those decisions.

You Lisa, Yvonne and the other staff at Medi-Cal Consulting Services have always been receptive to my many questions and gave me direction or told me to send the papers to you and Medi-Cal Consulting would handle the problem. They have kept me calm when I was upset from information I was sent regarding Social Security. Everyone has said, "don't worry about it, that is why we are here". Lisa, you and her staff, which I have connected with now, are always available to us whenever we need help. It is the first time in many years that we felt like we were not alone with this situation that will only get worse as the years go by.

We would and have recommended Medi-Cal Consulting Services to anyone who needs this kind of help with their loved ones.

Thank you again for the three years of help any many more to come.
