**Letter of Recommendation**

To Whom It May Concern:

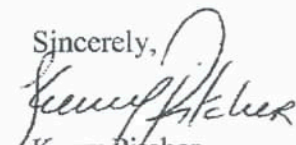

Medi-Cal Consulting Services has been extremely helpful with many of the Family Members and Residents who are trying to navigate the complexities and stress of trying to apply for LTC Medi-Cal in California.

Ms. Ramsey has assisted these Family Members in an efficient and very knowledgeable way in the entire application process, from initial meetings to actually filing the application forms with the constant and consistent follow up required to get results.

I believe that Ms. Ramsey's experience in this field has been enhanced as she has worked within the State Medi-Cal system and also in the Skilled Nursing Arena.

We have greatly appreciated her expertise and timely response to us and the families at all times.

Sincerely,

Kerry Picher  
Executive Director
